SpinnerTech

Voice Communications

Connected Communications

Have a detailed communications program that seamlessly integrates into your existing IT infrastructure. We provide a feature-rich, easy-to-use telephony experience that allows clear and organized communication between your employees and customers. We help with your phone system management, phone consulting, number transferring and new number purchasing abilities.

Certifications

- HIPAA Compliant
- Meaningful Use
- PCI DSS 3.1 Complaint
- BBB A+ Rating

SpinnerTech

> Enable your employees, customers, suppliers, and partners to collaborate quickly and easily.

Enterprise SIP Trunking

Manage VoIP and Unified Communications across the enterprise using your MPLS network. Reduce capital and management costs for all your locations with a secure and highly scalable alternative to traditional voice services.

IP PBX Systems

Leverage the full potential of your central switching system to further enable your workforce with 21st century tools. Features like IP phones that support visual voicemail, Find Me / Follow Me, and multi-party conferences ensures your enterprise is more responsive regardless of their physical location.

8x8 Implementation

UCaaS business VoIP empowers your company to conduct business anywhere, anytime. This flexible, easy to use solution provides cloud-based VoIP phone service and call center software as well as unified communications for less cost than traditional solutions.

Asterisk Implementation

Integrate all your voice technologies worldwide with this open-source, programmable PBX. Users can create new functionality by writing dial plan scripts in several of Asterisk's extensions languages or any other language using the Asterisk Gateway Interface.

Cisco Unified Solutions

Help your employees, customers, suppliers, and partners communicate quickly and easily in a single solution. Collaborate securely anywhere with high-quality conferencing, integrated voice, video, and content sharing using a cloud-based or on-premises model.

A Partner You Can Trust

SpinnerTech uses state-of-the-art technology that exceeds industry security standards. Our practices and technology are certified and maintained by leading security organizations to ensure your business is safeguarded.
